Contribution to the Group's Total Revenue
During the Period

AI & Digitalization: Advancing Our “AI 365” Strategy and Scaling AI Applications

Enhancing Quality & Efficiency: Our proprietary “Linglong” AI design model can transform initial sketches into design renderings in as little as 15 seconds, significantly shortening the traditional product design cycle.

Driving Growth: AI-powered predictive analytics identify emerging trends from social media data 6–12 months in advance. Combined with our agile test-and-repeat model and intelligent inventory pre-positioning, this enables better inventory management and greater operational agility.

Elevating Consumer Experience: Our “Lingxi” AI styling model is now live, providing personalized styling recommendations and virtual try-on experiences based on consumers’ needs and usage occasions, enhancing the omnichannel shopping experience.

Gross Profit Margin

Overall Gross Profit Margin **63.9%** ▲ 0.5 p.p.

Gross Profit (RMB billion)

Gross Profit Margin (%)

Main reasons for the change in Gross Profit Margin

- **ANTA**

- (i) Gross profit margin remained stable during the financial period, with a slight increase of 0.2% p.p.

- **FILA**

- (i) The increase in costs resulting from the enhancement of product quality to meet consumer demand and brand positioning; and
- (ii) Continued increase in the proportion of the e-commerce business which typically yields lower gross profit margins

Operating Expenses Ratio

Staff Costs Ratio*

15.4%

▼ 0.3 p.p.

- Total staff costs increased by 10.8% to RMB 6.7 billion, reflecting the Group's continuous commitment to human resources and talent development

■ ANTA ■ FILA ■ All other brands

Main reasons for the change in Operating Profit Margin

- **ANTA**

- (i) Ongoing investments in brand building, product R&D innovation, and the steady advancement of its globalization strategy, with the resulting expenditure increase partially offset by the rise in gross profit margin

- **FILA**

- (i) The enhancement in operating efficiency, partially offset by the decrease in gross profit margin
